Dinosaurs lived on the Earth over 200 million years ago and are now extinct. Extinct means they are no longer living. Dinosaurs were prehistoric reptiles that hatched from eggs and could not fly.

Some dinosaurs were herbivores or plant eaters. They walked on four strong legs and had flat teeth. Triceratops was a plant-eating dinosaur.

Some dinosaurs were carnivores or meat eaters. They usually walked on two feet, had sharp teeth and were predators. T. Rex was a meat-eating dinosaur.

Paleontologists study dinosaur fossil remains to learn about the amazing prehistoric world of dinosaurs.
