

FANTASTIC FISH!

Book created by Judy Bonzer
Graphics & clip art from Microsoft,
Print Artist, & Wikipedia
April 2009

By _____

Fish are vertebrates. This means they have a backbone. They are covered with scales.

1.

Fish breathe under water using gills. They have fins and tails to move about.

2.

Fish lay their eggs in the water.

3.

Fish sometimes travel in groups called "schools".

4.

Fish eat plants and other fish.

5.

Draw your favorite fish.

6.

Directions:

Fold each page in half with the writing to the outside.

Slip the numbered pages in order inside the cover page with the folded edge to the outside or right side of the book. Staple the pages together on the left side. Having the pages folded instead of cut apart makes them sturdier. Also, you can print the cover page on cardstock to make the book last longer. Have students add a picture of their favorite fish on the last page.

Enjoy!
