

Planet Roll Call

Meish Goldish

Nine planets around the sun,
Listen as I call each one:

Mercury? Here! Number one,
Closest planet to the sun.

Venus? Here! Number two,
Shining bright, just like new.

Earth? Here! Number three,
Earth is home to you and me.

Mars? Here! Number four,
Red and ready to explore!

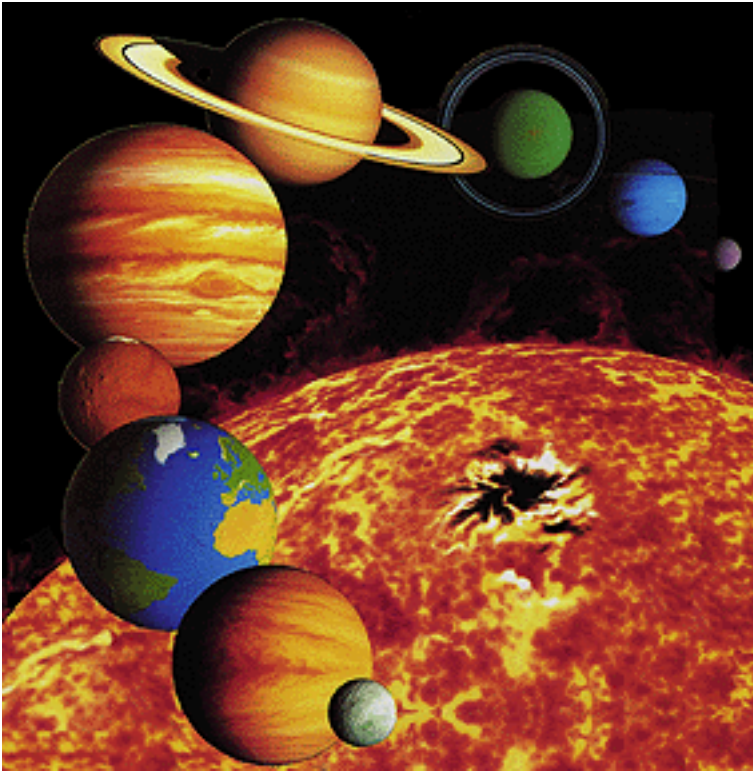

Jupiter? Here! Number five,
Largest planet, that's no jive!

Saturn? Here! Number six,
With rings of dust and ice that mix.

Uranus? Here! Number seven,
A planet tilted high in heaven.

Neptune? Here! Number eight,
With one dark spot whose size is great!

Pluto? Here! Number nine,
The smallest and the last in line.

****Note:**

Pluto, which was once considered a planet,
is now a dwarf planet.

1. Which planet is number four? _____

2. What color is this planet? _____
