Polar Bears

• They can be eight feet tall.
• They have short legs and furry webbed feet.
• They are excellent swimmers.
• They have thick clear fur that looks white.
• Their favorite foods are fish and seals.
• Mother bears take very good care of their cubs.

A polar bear can weigh 1,000 pounds or more.

• Polar bears are carnivores and only eat meat.
• They have blubber under their skin to keep them warm.
