

# In the Rainforest

Where can you find a toucan?

In the rainforest, you can!

High on a limb is where it

Can be seen with the monkey and parrot,

Squirrels leap from tree to tree,

While bats go flying free.

There's a bee, mosquito, and moth,

Look up! See the hanging sloth!

Down on the rainforest floor

Are big and small creatures galore:

The antelope, deer, and hog,

Plus termites and ants on a log.

Every day, hour by hour,

Butterflies float on a flower.

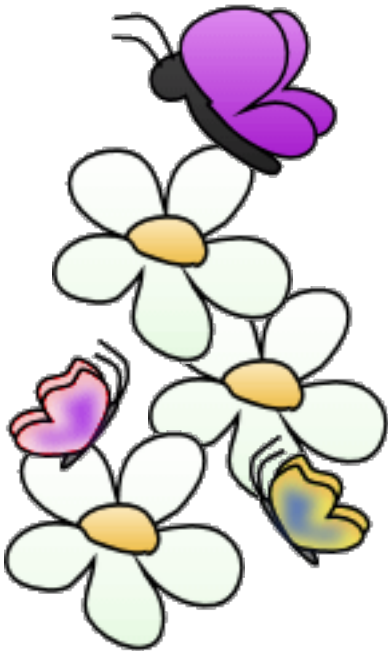

Lizards and snakes also play

In rainforest plants all day.

Ocelots, jaguars, leopards - yes!

The rain forest is a popular address!

By Meish Goldish

1. Squirrels leap from \_\_\_\_\_ to \_\_\_\_\_.
2. Butterflies \_\_\_\_\_ on a flower.
3. Play rhymes with \_\_\_\_\_.
4. A \_\_\_\_\_ can be found high on a limb with the monkey and parrot.
5. Lizards and snakes play in rainforest \_\_\_\_\_ all day.
