I have a little space
in the middle of my face,
and in that space,
there used to be a tooth.
It was little,
It was white,
And it just fell out one night,
and a fairy came and took it-
that's the truth!
The fairy left me money
when she took my tooth away-
took it from the pillow it was under.
What do fairies want with teeth
that they get from underneath
my pillow as I'm sleeping?
That, I wonder.
